This really is a great idea, the only concern I have is
How many pictures of a 440 movement do we need? or any Curvex movement
Why not a new sub section for Movement pictures only, like Ranftt but with Gruen movements
Its the same with case backs if the details are recorded do we need a picture of every one
I am open on the case backs
 I am not sure if it possible but could every picture uploaded be the same size? WxH
