Howdy Gruenites!

Ok, your crystal P.O.C. is Kurt Ryerson. He can be reached at the following e-mail.

watchdoc@embarqmail.com. He literally has thousands to offer, and as stated previously, is an accomplished watch repairman, and he does clocks as well. One super nice man!!!!

Warmest to all Gruenites!!!!

Tomas/Timeticker

If you're not versed in putting in your own crystal, Murphy's Crystal Service will sell you one and install it for about \$18 for a curved glass crystal. You'll have to call if you have questions and for instructions on sending in your watch's bezel and specifying your order as I don't have an email. I've used them for years (I don't do any of my own crystal work anymore, sadly) and am happy with their service.

Murphy's Crystal Service
1839 N Central Ave #B
Ceres, CA 95307
