Hey fellow Gruen aficionados,

Hope everyone is doing well during these testing times. I recently got my hands on a Gruen Doctor's Watch - 1928-1930 Techni Quadron w/ 877S movement, Yellow Gold. The Techni Quadron series has been the foundation of my passion for vintage watches and in my opinion, the one I purchased is a great example of it(please do let me know your thoughts on it). As you can tell though, the crown and the seconds hands are not original to the watch so I am looking to track down an original Gold crown and Blue seconds hand if possible from one of you if I am lucky.

Please also let me know if you have any of these mentioned parts and/or Gruen Techni Quadrons especially the Alpina Gruen version if you're thinking of letting go. I would love to chat further to add to my collection!

Sincerely,
Sean
