Hmm, I thought that all 7 movements Gruen filed for designe protection in 1908 would share production and therewith serial number base.

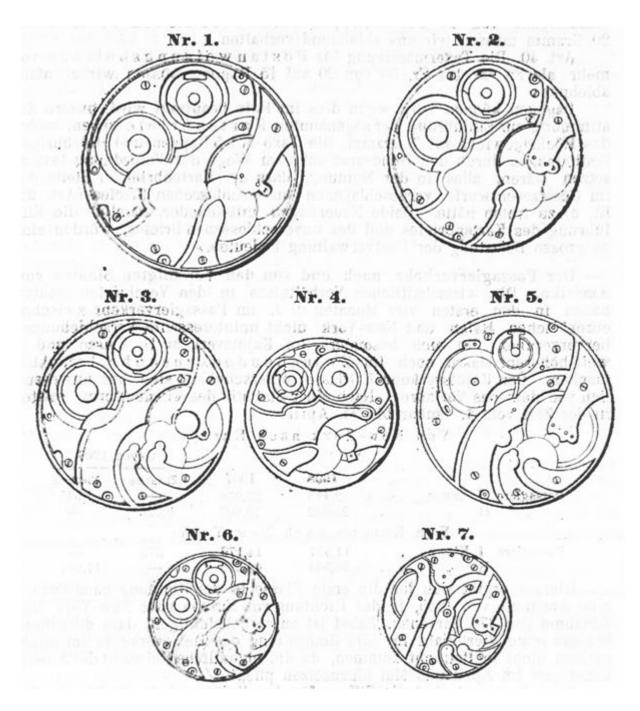

Here are the 7 movements:

```
#1 is most likely a 16 size / 19 ligne movement. Caliber 21 / 50 / 52 or 56? #2 should be 12 size / 17 ligne, I'd say caliber 35 #3 is the movement with serial 124463, correct? #4 should be 0 size / 13 ligne and caliber 45 #5 is our serial 128462 #6? #7 is my ladies movement with serial 130504.
```

BTW these are not the oldest movements Gruen filed for design protection in Switzerland. They were succeeded Apzil 1905 by this one (sorry, very bad print quality):
