Well, she is at the watchmaker. Getting a COA and a new mainspring (she had an older type, whatever that may mean :?). And a new crystal (removing the bulbing plastic one.

And i removed her strap. Time to get a proper ribbon one. But... now I need a green gold clasp. 10mm, but I wont fuzz about a bit smaller or bigger example. If I cant find one, she will get this yellow one.

Doe anyone have one for sale?
