I bought a ladies duo dial, caliber 675 (It says 675 inside case, so assume it is not the 907...) with 7 jewels. It arrived without its hour hand. Seller cant find it :(

I have got another same looking duo dial movement with 15 jewels. Maybe 905? Case also has 675 number...

1939 material catalog:

Cannon pinion...

Does the 15 jewel hand fit on the 7 jewel movement?

Or does anyone have a fitting matchstick hand?

Can post movement/dial pictures if needed.
