With discussions of what material some boxes are made of in mind, I was taking a closer look at one of my parts boxes, one that's damaged so I seldom touch it, but I noticed that on the underside there is clearly printed word...like a newspaper?....so I just wanted to say some of the "leatherette" skin on some the parts boxes seem to be made from recycled newspaper!...or something like a page from a book, maybe. Anyways thought it was interesting and funny :lol:
