Yours look crisp. Does your box have the greek pattern on top?
And I see your box is tipping back too without a watch in it.

It convinces me it is for bracelet watches (with foldable clasp?). Mostly mens watches. :) . But also maybe cord (with safety catch), mesh, flex ladies watches... So watch bands without open ends.

And I have some baguette boxes to show you if you'd like, ones really cool, art deco.

After this teaser... yes please!
