Adding the Caliber 90 / 91 (15J variant), this one with sub-seconds, circa 1912-13, American set, with the old style setting bits. Dial appears to possibly be Flückiger/Zelim Jacot, with number format matching Jenneke's 756 posted today, but no ZJ stamp.

Any ideas what "Adjusted" means in this case?

Barney already showed 90-93 in the Sept 1911 filing. Next to it, Cal 47 ? Or perhaps the hunter version of Cal 89 (Caliber 88)?
