Hi Matt,

this is so cool, thank you very, very much!!!

I have not yet been lucky to find the hoped for advertisement, there it is! A year later than anticipated, but you wer absolutely correct, an anniversary watchw with its 80 diamonds indicating the 80 years of Gruen. Not part of the Anniversary series but part of the Royalty family and it is even called the "Anniversary".

Although I have do admit that I am a little disappointed how cheap it was, just \$450. :)

This translates to \$4390 nowadays, wow...

Thank you a thousand times, Matt,
Bernd
