And here's the earliest I've recorded that matches Jack's caseback, although missing "Gruen veri-thin" stamps. Style number 524 (said to start in 1944) & case number below Jack's. Movement # 669,3xx, with Veri-Thin on ratchet wheel.

FYI, this is 5,000,000 case range for swcco, but they seem to only stamp the lead digit when they get +/- about 10k from the next million.
