---

After scouring eBay, and asking the local watchmaker, I'm hoping someone here can help.

Anyone have a matched set of three hands for cal. 405? Could be listed as 10.5" hands, maybe as 17m/m or 18m/m opening. ranfft.de says this model hands are 1.22 x 0.66 / 0.16mm, but I've also seen them listed as 1.20 x 0.65 / 0.16mm. White/silver would be best, but I'd be interested in a blued or gold set. Should I even mention that I'd like a set of moon hands? Are there any moon hands out there?

Short of a full set, anyone have a gold sub seconds hand for sale?

Thanks in advance!
