And the winding stem for FHF 1146 10.5 does fit the cal 885. You can buy different variants like 10.5''' or 13'''. Not sure if that has to do with the length or these are for different movements.

Now I need a crown. The crowns I have are to modern (90=tap 10). I think this needs a tap 8 (but my caliper is acting weird). Can someone confirm?
