Only lead I could find is the 415CA shares the same escape wheel as the 415. Which most likely means you use any sub-second hand from a 415. Reference Gruen 1970's Material Catalog. Although the 415 hand might be shorter in length.

Example

<https://www.ebay.com/itm/127037271281>

Parts movement

<https://www.ebay.com/itm/126461991355>
