So I think I have identified the make and model of the Gruen I need to find parts for. The watch in question is a Gruen with the CAL 2066 movement. I need a replacement stem and whatever components the stem interacts with. The watch that I need the parts for looks exactly like the one shown below.

Does anyone have stem & related parts for the CAL 2066 movement? If so how much? Here are photos below of a similar watch.

A close-up photograph of a Gruen Precision watch face. The watch has a gold-toned case and a dark brown dial. The dial features minimalist rectangular hour markers with white and gold stripes. The hands are also minimalist, with a red second hand and white/gold-tipped hour and minute hands. The text 'GRUEN PRECISION' is printed in the upper center, 'AUTOWIND 25 JEWELS' in the lower right, and 'SWISS' at the very bottom. The watch is resting on a light-colored, textured surface.
