The model ref# 273 is the Gruen Curvex Regent from 1937. In 1937 it sold for \$50. I found it in a few ads from 1937 but, the 1938 adverts no longer mentioned the Regent. The Regent housed the 311 movement. It was the last model to have the first Gen 311s. It is a cool watch. Hope this helps, Kyle
