Thanks Jack. I will leave it here for another few days' and then move it onto a stamp forum or ebay. Just thought I would like to give some of you guys s first option on it, so to speak. The stamps or not particularly hard to come by but they are quite expensive. Sieger at 650- euro, but can be picked up for less. The postcard and its' topic I have no idea about but figured someone here might be interested in having it. Cheers
