JackW wrote on Sat, 12 December 2015 18:22Here is a question... Does it take the new model or old model type winding stem?

I can't tell without removing it. The movement could have replaced just because there should be gold hands not the blued ones it currently has.

I took it back to the local antique shop, it's for sale. They put a \$400 price on it. I told them I was skeptical of the 14K value with the base metal back. I think that would reduce the price.
