And even less info on this one....

15 jewel movement, 22.02mm diameter which i believe is 9 3/4 lignes?, If i recall correctly from the old site this was an Aegler movement from the mid-late 1920's. Speculators on the Bulova site seems to believe that this movement base was also used by Favre when they made movements for Bulova in the late 20's.
