JackW wrote on Tue, 25 October 2016 17:44I somehow sheared the winding stem for my daily wear cal 460SS. I apparently don't have a replacement in the parts drawer. Used it on the last 460.

Anyone have one and willing to send it my way?

Meanwhile, curious if I can get the remaining portion from the movement without tearing the whole thing apart.

Maybe take the movement out and tackle this from the dial side? Much easier than taking the oscillating parts out.....only an ignorant guess? I have several of these as parts movements. CAN never keep them straight!
