Looking for a crown equal to the one shown in the picture. It is not for a Gruen but as there are more multi-brand collectors among us I thought I give it a try.

It is for a 1948 IWC dress watch. I have tried the IWC Forum, but don't get any response. Those folks are mainly interested in the new stuff...

Diameter : 5.0mm

Tap 10 : 0.90mm

Case tube : 1,80mm

Tube inner : 1.40mm
