Thanks, Thojil, for this very good explanation of the early Verithin movements!

May be one short addition regarding the case:

Also the case is absolutely authentic. The National Watch Case Co. was owned by Gruen, they acquired the Queen City Watch Case Mfg Co in 1898 and since 1902 were running it under the National Watch Case Co. name.

Looks like you have a very nice 1908 / 1909 Gruen Verithin!
