That is certainly a possibility.

Found this 1941 ad that includes a gf Colonel (bottom right corner) with expansion band...sure looks like a Trooper to me.

Maybe you can work some of your magic to enlarge and make the print more readable?
It wouldn't be the first time Gruen changed the name based on band type.

THE NEW GRUEN CURVEX!
is unquestionably the most flatterying watch you could wear today. The secret's in its patented Gruen Curvex movement. This "miracle" movement actually curves, with the ultra-smart curved case, making possible all working parts for exceptional precision and thinness.

THE NEW GRUEN VERI-THIN!
is the most popular thin wristwatch made today. And—a marvel for accuracy and long life. You see, its working parts have all-important ligness—but so ingeniously are they arranged that the watch is made half again as thin at the sides and ends.

"THE PEAK OF WORLD WATCH STYLE!"
That's what America's ace fashion designers designate Gruen. And the Gruen Curvex and Veri-Thin are two chief reasons. See the latest models now—at your Gruen jewelers.
