I somehow sheared the winding stem for my daily wear cal 460SS. I apparently don't have a replacement in the parts drawer. Used it on the last 460.

Anyone have one and willing to send it my way?

Meanwhile, curious if I can get the remaining portion from the movement without tearing the whole thing apart.

Let me see if I have a stem for you. I bought a graveyard up parts recently with a whole bunch of stems. I'll check and see what I have.

Maybe take the movement out and tackle this from the dial side? Much easier than taking the oscillating parts out.....only an ignorant guess? I have several of these as parts movements. CAN never keep them straight!

Well I certainly hope I have one for you. I won't know until I get home tomorrow. If worse comes to worse then maybe I can grab a used one out of an old movement

Jack
I have you covered on the stem. Send me a PM as to were to send it. I don't know if you are still at the same place in CO.

Kurt

Tomas, I've two from other movements. Problem is they are two short. I'm really after a new one. Thank you for the offer, however, I'm going to see what Kurt has on offer. Cheers my friend!

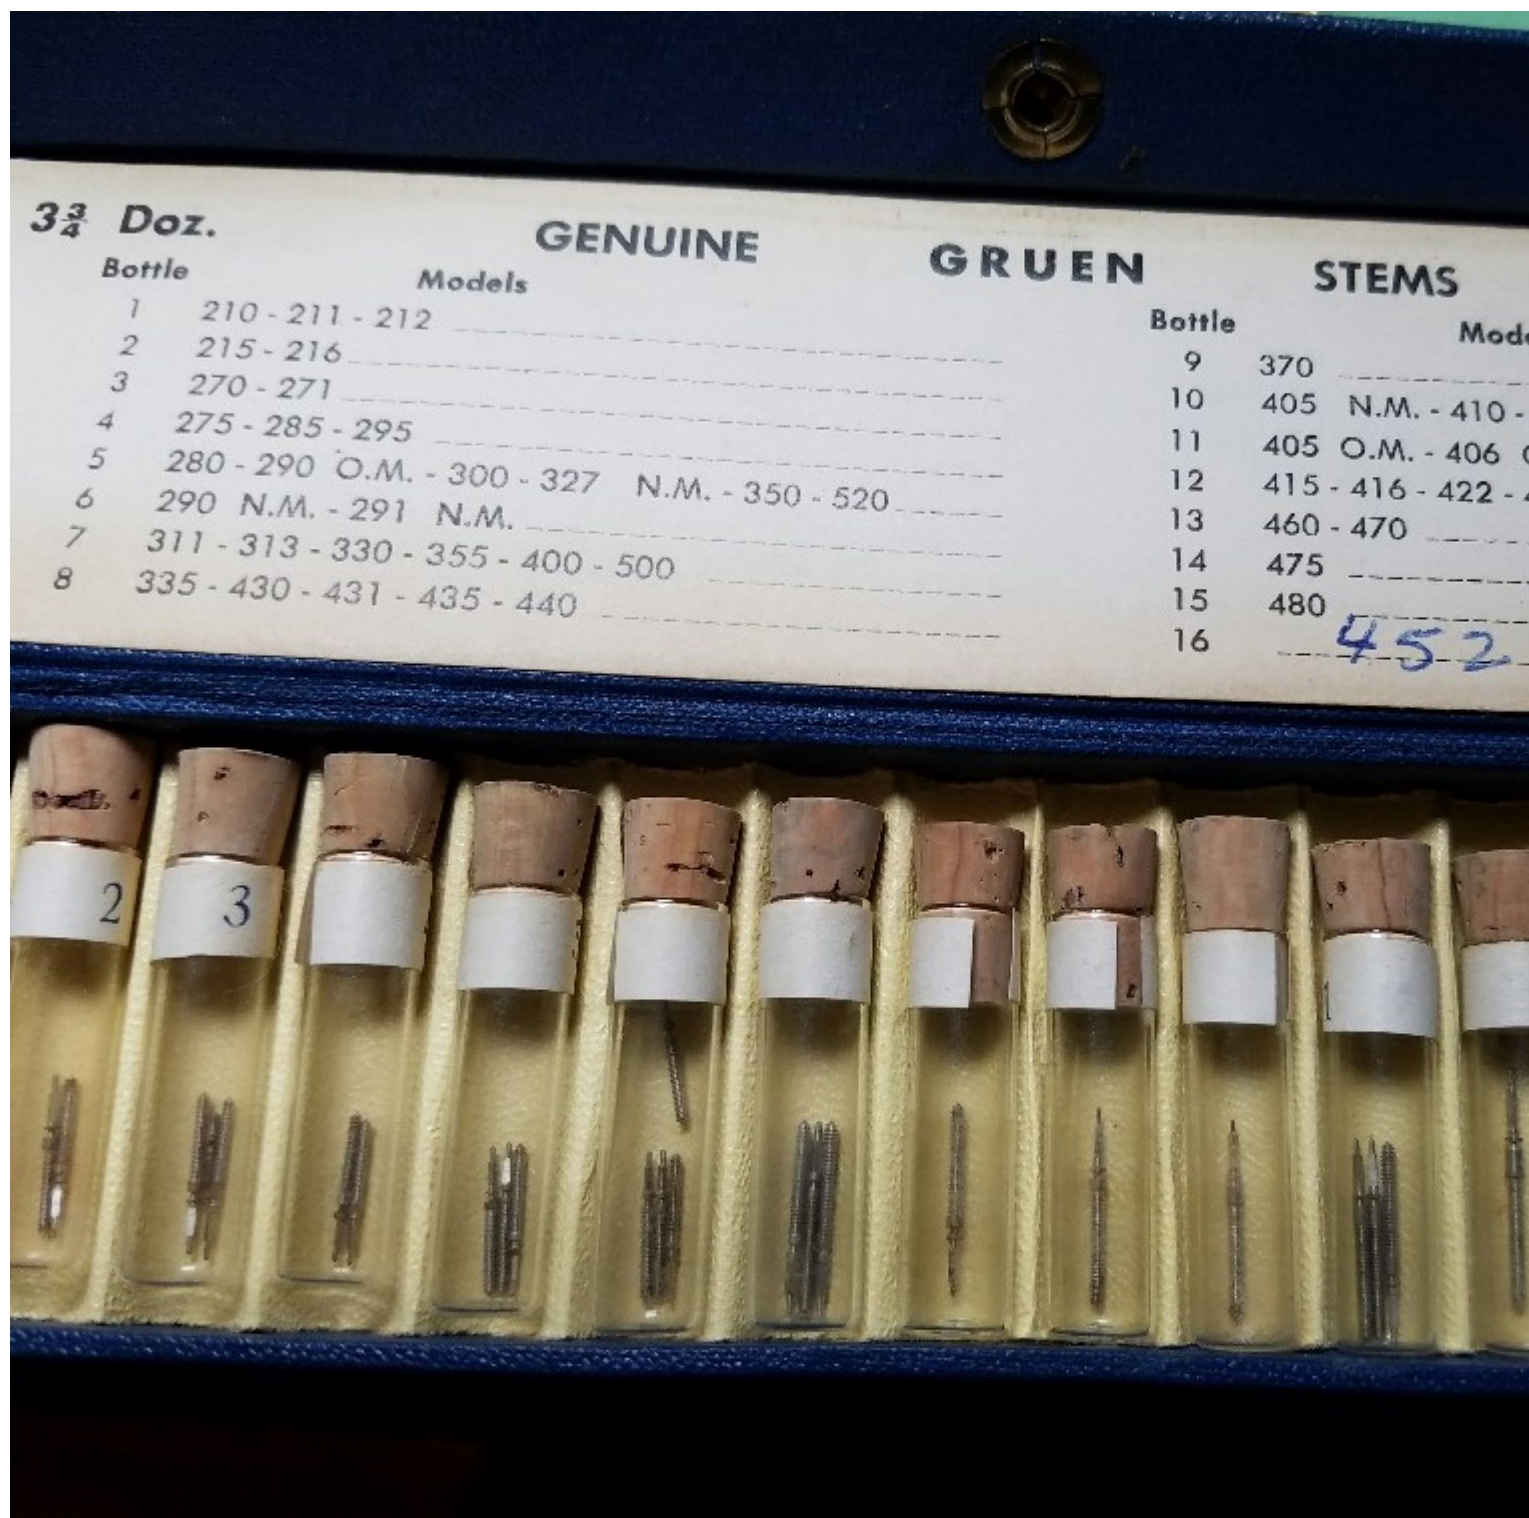

Kurt... PM coming to you soon. Thank you!

OK... well I had a huge stash of parts come in tonight plus a rare bird from the San Diego Regional. Vial #13 has it, 470 must also be compatible.

Ok, well at least I tried! As it turns out, I have several. I guess someone beat me to it!

It looks like the 460, or 462, and 470 all use the same stem. Sorry Jack, I just got back home tonight, but I do have the stem.
