I need a yellow gold crown for my Gruen Apollo. Lost the original quite a while ago, before having it repaired.

The stem is still in the watch so all I need is the crown.

Thanks

Hi there,

which Apollo do you have? The 1937-1942 Apollo or the 1948-1951 "Veri-Thin Apollo"? Or did you mean the 1969 Apollo? It might also be helpful to know the style / caliber numbers just in case.

Not that I would have a crown but just in case someone else would have one it would be worth to know which one you need.

Barney

In case you are talking about the Veri-Thin Apollo, this one should fit: 192041968838 at ebay...

I had no idea there were so many Apollo watches by Gruen. Mine is the 1948-1951 Veri-Thin Apollo. I'll try the eBay crown THANKS!
