Anyone have a good/NOS dial for a (Gruen Watch Catalog numbering) Quadron 73, 74 or 75 they would be willing to sell? I saw one at a show about a year ago and am now kicking myself that I didn't buy it.

I most certainly will! In fact, every time I go "surfing" I look for that dial. I have only seen these...rarely! I'm always trying to catch a good deal, so if this pops up, I'll send you a link.

Found a great dial at the SouthWest California Regional for $75 and it is already installed.

The case has got a bit of wear, but I suppose I'll be in the same position when I'm about 85 years old!

That looks great. How was the regional? There were several folks from my area who went down.

I was only there for the mart and it was light; about 1/4 of the tables were open. Some good items though including a fellow I have seen before with his outstanding collection of vintage Pulsars. I just missed a fellow getting arrested for stealing a pocket watch but everyone was talking about it.
