Howdy Everyone, and Happy New Year!

I am looking for a rivet for a Gruen CAL 335 like the one mentioned in the Swamp item number listed below. The little brass rivet at 8 position is missing. If you have one of the cases as a junker, I could sure use one of the rivets. This is for a fellow Gruenite, as well. Will buy, sell, trade.

Ebay item 162816923397

Kindest Regards,
Tomas AKA Timeticker

Hey bubba,

Got me thinking that one could make a suitable rivet using some brass stock on a lathe. I could give it a crack if you have the rough size. Too maybe find a third party rivet at a fabric hobby shop like Hobby Lobby or Jo-Ann's. Again if you can give a rough size I'm always at these shops looking at my numerous projects.

Gary out
