I'm pretty pleased with my collection but am missing one of these. Anyone have something they would be willing to part with?

Ditto!!!

I'm kicking myself to this day that I didn't take the offer up on afire's deal awhile back! Folks here were egging me to get it and I still did not move. Afire came down on the price too, then it was gone.

Sounds like a blues song...

Brother he showed me the gong  
Brother he showed me the ding dong ding dong  
How to kick that gong to light  
Oh, it's nobody's fault but mine

I'll keep my eyes peeled. I have one old lead bookmarked at home. I'll check to see if it's still available. It was for quite a while.

Here's the one I know about: <https://www.solvangantiques.com/products-page/watches/rare-green-gold-mens-gruen-wrist-watch/>

I am \*really\* not a fan of restored dials so I've been staying away from it...well that, and the price.

I have one of these, but the case is butt ugly, and I need a new mainspring. The dial really should be re-done, but.....
