Howdy Gruenites!!!!

Up for sale is a very nice CAL 315. Case is 14K white gold filled, and in excellent shape. Crystal is like new (glass) and dial patina is all original as are the hands. Sometimes I have International re-dial some of my pieces, but could not bring myself to do that, to this dial. This has been serviced, new mainspring, and keeps excellent time (as good as to be expected) If you are interested, please IM me, and we'll talk price. If you are a collector on this site, and there are several to include myself, I can't let this go for dirt cheap. Please look at the photos, and of course this can be used for identification, year , make, and model
