What happened to the green letter "G" that headed my bookmark?
It disappeared sometime in the past week.
I think it went missing after the lastest Firefox update.

Don't know what to tell you Liz. I'm on version 52.9.0 of FF. The "G" shows up in my bookmarks and the browser tabs.

Maybe it disappeared from your cache during the upgrade. Try bookmarking the page again and see if it appears.

It's back! :)

I did create a new boolmark but it only showed up again after three successive log-ins.

I'm using 63.0.1 FF
