I was given not only this nice Victoria box but also little Vicky itself as a present by a very valued member of this forum. So a very big thank you to the generous guy who made me a big pleasure!!!

This box was used for the Victor and Victoria series which was introduced and heavily promoted in 1936 being the market opener for smaller watches after the baguette era for the ladies. The outside came in red and black velvet covering the wooden box. Just like the green box it has a polished metal rim at the opening. Gruen writing on the silk like inner cover comes in a modified font, also the crest has been modified over the slightly older green box. Not known if there were other watches of that time coming in the same box.

Period : 1936 - 1938

Watch type : Victor & Victoria with its variants

Size : L=7cm W=12.2cm Hfront=3.1cm Hback=5cm

Inventor : unknown

Of course we'll welcome more pictures of ephemera. Also, just for the sake of completeness, can you show us what the Victor model is?

OK, accompanying papers first, it is a single sheet of paper, printed double sided:

Here comes the folder showing the box. As you can see the inside looks a bit different in this preseries, I think that the introductory folder was made with prototypes of the boxes.

Last but not least a group picture of all 6 Victor / Victoria models:

There is the slight possibility that the boxes were used for the succeeding Victor / Victoria couple of quite different looking watches with the same names which were introduced as successors in 1938.

How to Care Your Fine Gruen

You can always be proud of your Gruen. It is the finest watch that the finest watchmakers in the world know how to make. It is sturdy, reliable, and gives accurate, dependable timekeeping for many years.

Naturally, you will give your Gruen the care and attention that a fine watch deserves. Proper care can help maintain its precision accuracy for many years, following these few rules:

Wind your Gruen fully, *at the same time each day*, preferably when you arise in the morning.

Keep your Gruen away from dust, lint, cosmetics and perfumes, which can damage the watch.

Do not open the back and expose the movement to dust or moisture.

That confirms one thing I've always kind of wondered about - whether these ostensibly ladies style boxes ever held men's watches. It makes sense that at least mens watches with metal bracelets would not have been packaged in the usual long flat boxes.
