---

Looking for a decent, original dial for my Strap 960 Cortez, as I now have the correct watch for the dial the Cortez came with.

Minute track should measure approximately 15.3mm x 18.7mm. Height is roughly 1.22 times the width.

Dial should read Gruen Precision but I would also be happy to find an original dial that reads Gruen Veri-Thin or other, as long as it matches the 435.

Please let me know what you've got!

Thanks in advance!

Edit: Found

Thanks again, Dietrich!
