Subject: FOUND Pallet Fork / Arbor 430

Smashed the pivot on the 435 pallet arbor I've been servicing.

Not content to call it a night, I pulled the pallet fork from my donor 335 and smashed its arbor pivot too. :blush:

Almost done with this service. FOUND the last replacement pallet fork in the swamp. Interchange catalog shows this as a caliber 430 part.

Thanks in advance!

FOUND, thank you Dietrich.

Make sure to check your jewels under 15x, you might find a detached pivot in there, ideally before you break another.

Despite a lack of interchange info in Gruen Material Catalog 453, and slight differences in appearance, the 335 pallet cock slots into the 435. I replaced both the smashed pallet and the bridge with the detached pivot.
