What also could help with dating the box, is the wristlet.

The watch that was inside, was the left one. The right one came with it, so could also be the original watch.

Botch watches have a Gruen 1/10 clasp. Slightly different in markings.

The clasp on the right has a patent date:

Great! Looked it up and no mentioning of Gruen in the text. And no B&N on my clasp. Strange.
