A standard material box for movements, this one for the 600 series caliber by the looks of it. Bets are this was an in country box for distribution and not exported.

Period: 1930 - A wild guess being we what looks like a newly built Time Hill factory in Biel.

Watch type: 600 Series

Size: 11 x 15 cm

Inventor: Gruen

Patents: Not known

Box maker: Gruen

That is a fun find! Nice clear picture of the factory too. Very well preserved box.
