Hello,

I have this Gruen caliber 315 that needs either a complete balance ^%\$# assembly or a staff. Who does staffing, or who has an assembly they want to get rid of?

Warmest Regards,
Timeticker

I have a 1/4 dozen pack of them sitting here in front of me. Fits 315-345. If you don't find a full assembly but find a staffer, let me know, send a PM.

BTW- Looking for a lathe, thinking of getting a Cowells 90 CW with a horizontal mill attachment + indexing head, good for cutting those gears! ;-)
