Well, The time has come. We are moving from the suburbs of Seattle 98.237.194.32 to the cloud of Los Angeles http://vintagegruen.org/vgforum/

The move is in progress and should be complete within the next 24 hours.

Sure was fun selecting a forum and putting it together with the help of the forum members.

Ah just got a note from the Captain who has this announcement to make:

"Ladies and Gentlemen, the fasten seatbelt sign has been turned off. You may get up and roam around the cabin. Free drinks are available in the rear of the aircraft"

Thanks again for making this all happen! Enjoy the ride!

Gary

No, Took a backup of the forum and some folks looged in to my server and made some posts. They didn't get included in the restore to the cloud.

One thing we proved in all this. The diaster recovery scenario works! Moved (restored) a live forum to another host.
