Came across these two Dutch sites while searching for a Langendorf winding stem/crown. They appear to have a number of Gruen parts & dimensions of the balance staffs are included. I've provided the link to the Gruen specific pages below;

Balance Staffs.

Winding Stems.

Yeah, I ran across these before and what I like about the staffs is they give size dimensions. Everything that a growing staffer needs, what more could you ask for? ;-)

Attn Timeticker: Might want to inquire about their quote for 157 staffs.
