I'm looking for one of the braided bands that was sold with some of the 1933 Gruen Hollywoods. A picture is attached from Volume 1 of the Gruen ID Guide, page 14.

The chances of finding an original are slim to none, so it is likely going to have to be made. If anyone knows of a band maker that can make one of these, please let me know.

I only saw it once. It was in NOS quality offered by "Timesofplenty". I didn't like the price though...
